Libraries and Assets Used:

libGDX:

- Free and open-source software: FOSS is software whose source code is publicly available, allowing anyone to use, share, modify, and distribute it under a license that guarantees these freedoms
- Suitability of the license for this project: FOSS allows for the code to be used and distribute, therefore legal to be used in the project

Tiled:

- Free and open source software: same licensing as libGDX
- Suitability: same suitability as libGDX
